We will meet at the picnic area (across from office) for safety meeting prior to going onto the shooting range.
We can stay as a group, we don't have to.
Encourage those who own firearms to bring them.
(I intend to start at the clay pigeon area then move to rifle or pistol.)

We can provide Hamburgers and/or Italian & Polish sausages, perhaps we can make this a pot luck for salads and desserts. The club can provide drinks, whatever else available including paper plates, plastic forks etc, napkins. And we will need to bring ice. I can get from the gun club those big buckets for drinks on ice.
We will use the gun club briquette grill if we have briquettes, we can borrow the gun club gas grill if we really need to.
Beside the picnic area seating 100, there is a grassy area with lawn chairs for those who don't want to shoot. It's still noisy.

The gun club offers target shooting for pistol, rifle, and shotgun.
The gun club sells rifle, pistol, and shotgun ammunition, not all varieties.
It also sells targets and clay pigeons.
The gun club sells NO guns, rents NO guns.
Eye protection is mandatory for everybody except at the picnic grounds.
Hearing protection mandatory too.
Both hearing and eye protection are for sale at the gun club.

Admission is \$15 per adult, half price for under age 16.

We should charge \$15 per person, flat.

If you want to reduce the price for juniors, ok as we (gun club) like to introduce kids to firearms.

If you want to reduce the price for non shooters, you do the math. But I guaranty we (the gun club "we") will throw out anyone who does not pay admission and goes beyond the picnic area.

I, and four guests, get free admission. This \$75 can go toward food. I hope this works.
